17. Institutional Reforms

- (a) With a view to securing the integrity of statistics in Mauritius, Government is currently working with the International Monetary Fund (IMF) to carry out an assessment of the extent to which institutions responsible for compiling and disseminating statistics in Mauritius, such as Statistics Mauritius and the BOM, are observing internationally recognised statistical standards and codes. The IMF is using the data module of the Report on the Observance of Standards and Codes (ROSC) based on the Data Quality Assessment Framework for the assessment.
